**Repair is**  
*what you make of it!*

Scan for more information

THE NEW

# StoneLux® 2.0

**New ideas**  
*for better repairs!*

- ▶ blue:tron® High performance curing light  
for 15 seconds high speed curing

- ▶ ConneX click system  
easy coupling of the repair cases

- ▶ Ceramic repair pastes  
14 new color shades for advanced surfaces

## Plus

- ▶ 2 new 30ml filler materials
- ▶ 4 new fine grinding pads
- ▶ 2 new primer pens

## **Versatile repair** *like never before!*

Five repair techniques make StoneLux® 2.0 impressively suitable to use on many new and classic material surfaces.

### **Transpa technique**

for minor damage to vivid surfaces

### **Retouch technique**

for voluminous damages on colored surfaces

### **Crystal technique**

for damaged monochrome and crystalline surfaces

### **Structure technique**

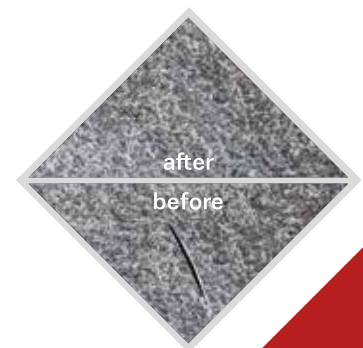

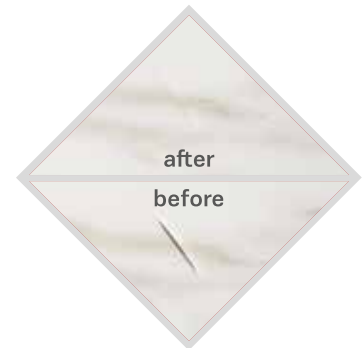

for damaged structured surfaces

### **Microdefect technique**

for hairline cracks, preparation margins and other micro-defects

## **If it has** *to be good again!*

StoneLux® 2.0 brings together innovative tools, new clever and proven materials and field-tested processes in a new repair system.
